

# Diversity Egg Activity

## You will need:

White eggs

Brown eggs

Two small bowls

## Procedure

1. Divide students into groups of 4 or 5.
2. Label the two bowls, one with “White Shell” and one with “Brown Shell.”
3. Give each group a white egg and a brown egg.
4. Have the students discuss the differences they see in the eggs.
5. Allow students to crack the white egg in the bowl labeled “White Shell” and the brown egg in the bowl labeled “Brown Shell.”
6. Have students discuss the differences they see in the egg yolks.
7. Continue with the discussion questions below.

## Discussion Questions:

- What were the differences you saw in the two eggs on the outside?
- What differences did you see in the two eggs when you cracked them open?
- How does our activity with the eggs relate to people?
